- 1 On the reduction of  $\text{ClO}_4^-$  ions in the course of metal dissolution in  $\text{HClO}_4$  solutions
- 7 Corrosion macrocell behavior of reinforcing steel in partially submerged concrete columns
- 33 AC and DC study of the temperature effect on mild steel corrosion in acid media in the presence of benzimidazole derivatives
- 59 Investigation into the evolution of corrosion product layer (CPL) of 1018 C-steel exposed to multiphase environment using FIB and EIS techniques
- 81 Computer simulation of the corrosion inhibition of copper in acidic solution by alkyl esters of 5-carboxybenzotriazole
- 97 Wavelet analysis of electrochemical noise measurements during corrosion of austenitic and superduplex stainless steels in chloride media
- 123 Ranking high-quality paint systems using EIS. Part I: intact coatings
- 139 Ranking high-quality paint systems using EIS. Part II: defective coatings
- 149 Anodising of Al 2024-T3 in a modified sulphuric acid/boric acid bath for aeronautical applications
- 161 Influence of the cathodic intermetallics distribution on the reproducibility of the electrochemical measurements on AA5083 alloy in NaCl solutions
- 181 Inhibition of steel corrosion by polyaniline coatings
- 199 XPS and EPMA studies on self-healing mechanism of a protective film composed of hydrated cerium(III) oxide and sodium phosphate on zinc
- 211 On the high-temperature oxidation of nickel
  - I Corrosion diary
  - V Keywords for *Corrosion Science*

## NUMBER 2

- 237 Preparation and characterisation of electrophoretically deposited hydroxyapatite coatings on type 316L stainless steel
- 253 The isoxazolidines: a new class of corrosion inhibitors of mild steel in acidic medium
- 267 Effect of KSCN and its concentration on the reactivation behavior of sensitized alloy 600 in sulfuric acid solution
- 281 Effect of gas composition on cementite decomposition and coke formation on iron
- 301 Semiconductor aspects of the passive oxide film on aluminum as modified by surface alloying
- 309 Corrosion inhibition of Armco iron in 1 M HCl solution by alkyltriazoles
- 321 Effect of the exposure angle in the corrosion rate of plain carbon steel in a marine atmosphere
- 339 The influence of a segregated MoN layer on the room temperature oxidation of a Fe(100)-3.5 wt.% Mo-N specimen

W. ZHANG, S. RUAN, D. A. WOLFE and G. S. FRANKEL	353	Statistical model for intergranular corrosion growth kinetics
F. BENTISS, M. TRAISNEL, H. VEZIN and M. LAGRENÉE	371	Linear resistance model of the inhibition mechanism of steel in HCl by triazole and oxadiazole derivatives: structure-activity correlations

K. ARAMAKI	2361	Self-healing protective films prepared on zinc electrodes by treatment in a cerium(III) nitrate solution and modification with sodium phosphate and calcium or magnesium nitrate
D. McNAUGHTAN, M. WORSFOLD and M. J. ROBINSON	2377	Corrosion product force measurements in the study of exfoliation and stress corrosion cracking in high strength aluminium alloys
A. V. VVEDENSKII and S. N. GRUSHEVSKAYA	2391	Kinetic peculiarities of anodic dissolution of copper and its gold alloys accompanied by the formation of insoluble Cu(I) products
	I	Corrosion diary
	V	Keywords for <i>Corrosion Science</i>
<b>NUMBER 11</b>		
K. C. EMREGÜL and A. A. AKSÜT	2415	The effect of sodium molybdate on the pitting corrosion of aluminum
PH. REFAIT, O. BENALI, M. ABDELMOULA and J.-M. R. GÉNIN	2435	Formation of 'ferric green rust' and/or ferrihydrite by fast oxidation of iron(II-III) hydroxychloride green rust
R. BALASUBRAMANIAM and A. V. RAMESH KUMAR	2451	Corrosion resistance of the Dhar iron pillar
S. V. PHADNIS, A. K. SATPATI, K. P. MUTHE, J. C. VYAS and R. I. SUNDARESAN	2467	Comparison of rolled and heat treated SS304 in chloride solution using electrochemical and XPS techniques
A. Y. EL-ETRE	2485	Inhibition of aluminum corrosion using <i>Opuntia</i> extract
S. B. FARINA, G. S. DUFFO and J. R. GALVELE	2497	Stress corrosion cracking of zirconium and Zircaloy-4 in halide aqueous solutions
A. CARNOT, I. FRATEUR, S. ZANNA, B. TRIBOLLET, I. DUBOIS-BRUGGER and P. MARCUS	2513	Corrosion mechanisms of steel concrete moulds in contact with a demoulding agent studied by EIS and XPS
V. MEDRI, M. BRACISIEWICZ, A. RUFFINI and A. BELLOSI	2525	Corrosion of hot pressed Si <sub>3</sub> N <sub>4</sub> -TiN composite in sulphuric acid aqueous solution
O. M. MATARREDONA, K. MACH, M. M. RIEGER and E. A. O'REAR	2541	Alteration of wettability and inhibition of corrosion in narrow aluminium 7075 gaps by thin polymer films
K. STAHL, K. NIELSEN, J. JIANG, B. LEBECH, J. C. HANSON, P. NORBY and J. VAN LANSCHOT	2563	On the akaganéite crystal structure, phase transformations and possible role in post-excavational corrosion of iron artifacts
X. SHI, R. AVCI, M. GEISER and Z. LEWANDOWSKI	2577	Comparative study in chemistry of microbially and electrochemically induced pitting of 316L stainless steel
M. KUROSAKI and M. SEO	2597	Corrosion behavior of iron thin film in deaerated phosphate solutions by an electrochemical quartz crystal microbalance
R. E. MELCHERS	2609	Effect on marine immersion corrosion of carbon content of low alloy steels
C. A. HUANG, W. LIN and S. C. LIN	2627	The electrochemical polishing behaviour of P/M high-speed steel (ASP 23) in perchloric-acetic mixed acids
K. ARAMAKI and T. SHIMURA	2639	Prevention of passive film breakdown on iron in a borate buffer solution containing chloride ion by coverage with a self-assembled monolayer of hexadecanoate ion
F. FALKENBERG, K. FUSHIMI and M. SEO	2657	Study on initiation of localised corrosion on copper thin film electrode by combinational use of an EQCM with a liquid-phase ion gun
K. ASAMI and M. KIKUCHI	2671	In-depth distribution of rusts on a plain carbon steel and weathering steels exposed to coastal-industrial atmosphere for 17 years
C. H. CHANG, J. H. PARK, J. S. KIM, M. K. JOO, G. D. LEE, K. Y. KIM, A. NISHIKATA and T. TSURU	2689	Nondestructive evaluation of corrosion beneath organic coatings by synchrotron X-rays

## NUMBER 12

- 2697 Platinum-induced oxidation of chromium in O<sub>2</sub> at 800 °C
- 2705 Ethoxylated fatty alcohols as corrosion inhibitors for dissolution of zinc in hydrochloric acid
- 2717 Scanning Auger electron spectroscopy study of the oxide film formed on dendritic and interdendritic regions of C containing Fe<sub>3</sub>Al intermetallic
- 2729 A study on the deactivation of an IrO<sub>2</sub>-Ta<sub>2</sub>O<sub>5</sub> coated titanium anode
- 2741 A corrosion study of the main constituent phases of AZ91 magnesium alloys
- 2757 Initial stages of plasma electrolytic oxidation of titanium
- 2769 Analysis of the galvanostatic polarization method for determining reliable pitting potentials on stainless steels in crevice-free conditions
- 2787 The atmospheric corrosion of copper by hydrogen sulphide in underground conditions
- 2803 An investigation of chloride-substituted Schiff bases as corrosion inhibitors for steel
- 2819 Corrosion resistance of HVOF sprayed HastelloyC nickel base alloy in seawater
- 2837 The electropolymerization of pyrrole at a CuNi electrode: corrosion protection properties
- 2851 Multianalytical in-situ investigations of the early stages of corrosion of copper, zinc and binary copper/zinc alloys
- 2867 Yttrium sol-gel coating effects on the cyclic oxidation behaviour of 304 stainless steel
- 2881 Anodic oxidation of Ta/Fe alloys
- 2893 Electrodeposition of sol-gel films on Al for corrosion protection
- 2905 Influence of current density on transport numbers in anodic oxide films on an anodized Al-5.7at.%W alloy
- 2915 Influence of oxidation rate and alloy composition on alloy enrichments of anodized Al-W alloys
- I Corrosion diary
- III Index for volume 45, 2003
- XXVII Keywords for *Corrosion Science*

1. The first part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present and for the development of a sound perspective on the future. The author emphasizes that the study of history is not merely a collection of facts, but a process of critical thinking and analysis.

2. The second part of the paper examines the role of the federal government in the development of the United States. It discusses the various policies and programs that have been implemented over the years, and evaluates their effectiveness. The author argues that the federal government has played a crucial role in the growth and development of the country, and that its actions have shaped the nation's identity and values.

3. The third part of the paper explores the impact of the American Revolution on the development of the United States. It discusses the political, social, and economic changes that resulted from the Revolution, and examines the role of the federal government in the process. The author argues that the American Revolution was a turning point in the history of the United States, and that its legacy continues to shape the nation today.

4. The fourth part of the paper discusses the role of the federal government in the development of the United States. It examines the various policies and programs that have been implemented over the years, and evaluates their effectiveness. The author argues that the federal government has played a crucial role in the growth and development of the country, and that its actions have shaped the nation's identity and values.

5. The fifth part of the paper explores the impact of the American Revolution on the development of the United States. It discusses the political, social, and economic changes that resulted from the Revolution, and examines the role of the federal government in the process. The author argues that the American Revolution was a turning point in the history of the United States, and that its legacy continues to shape the nation today.
